

About APM Terminals

APM Terminals operates a Global Port, Terminal and Inland Services Network comprising operations in 57 port and terminal facilities in 36 countries, and over 150 Inland Services operations in 46 countries, with a combined total of 24,000 employees in 63 countries worldwide.

Setting industry standards for Safety, Sustainability and Service, APM Terminals continues to invest in port and inland infrastructure in strategic locations around the world such as the high growth markets of Latin America, Africa, Asia, the Indian subcontinent and Central Europe.

APM Terminals is a wholly-owned, independent company within the Copenhagen, Denmark-based A.P. Møller-Maersk Group. The Group was established in 1904, and is active in shipping and logistics, ports and terminals, energy, retail and technology with 108,000 employees in 130 countries.
